## Welcome Back Students!

On behalf of the Venango Voice, I would like to welcome back all returning students and extend my welcome to all the new students on campus. I hope this year is even better than the last, and wish everyone the best of luck with their classes. I hope to make the Venango Voice a much more active part of student life this year, and encourage everyone to help contribute and exercise their first amendment rights.

## The Campus Activities Board and Student Clubs Need You!

Don't think that all you have to do is show up to class. There is much more to a college education and much more you can learn by participating in some of the clubs and organizations on campus. Club participation is a good way to gain leadership, teamwork and better social skills. Besides that, it is lots of fun. Below is a list of the opportunities you have at Venango Campus.

**The Campus Activities Board consists of 5 committees.**

**Cultural Arts Committee** which arranges concerts, theater productions, etc.

**Special Events Committee** which arranges special entertainment and trips.

**Student Union Committee** which arranges novelty acts.

**Dance Committee** which arranges Winter, Spring and other specialty dances.

**Publicity Committee** is the group that advertises the activities for the other 4 committees.

Each of these committees needs new members each year to have fresh ideas and to help pull them off. Interested students can sign up for any of these committees at Montgomery 232.

You may also be interested in our clubs on campus:

Ski Club  
Student PA State Education Association  
Nursing Club  
Outdoor Club  
Business Club  
Phi Theta Kappa (by invitation only)  
Adult Learners' Organization

Graphic Arts Club - NEW

Please let your interest be known by signing up with the Coordinator of Student Activities, Angel Muschweck, at 232 Montgomery Hall. You will receive a call from a club member to get you started. We look forward to a great year of involvement and fun for all our campus community. Don't be shy. Come join in!

## Don't Miss Out on the LSC

The Learning Support Centers provide students with peer tutors and a professional staff that are dedicated to helping students with study skills and subject-related questions. The LSC is located on the third-floor of Montgomery Hall. The LSC includes the Computer Center in 311, the Tutoring Center in 318, and the Writing Center in 319. Students are encouraged to use this excellent resource to do homework, use the computers, receive tutoring, get help with papers, and learn better study skills. The tutors and their hours for the Fall semester will be posted outside the LSC and around campus soon, so keep your eyes open!

### Newspaper Staff Needed

The *Venango Voice* is currently looking for students interested in participating in writing and editing positions for the Fall 2004 semester. While all students are welcome to submit articles and other pieces at any time, the newspaper would like to enlist a small staff of students who enjoy writing, proofreading, and attending campus activities in order to better the quality of the publication. These positions are a great idea for English and Communication majors. COMM majors are required to complete one print co-curricular activity within their first four semesters at the University, so this is a great way to fulfill that requirement. Also, participants will find this to be a good way to become more involved in student life on campus.

Interested parties should stop by the *Venango Voice* office at 226 Montgomery Hall, or e-mail Sheena at [thevenangovoice@yahoo.com](mailto:thevenangovoice@yahoo.com).

## FunDay 2004 and Chapter 9

FunDay 2004 at Venango Campus took place the Saturday before classes started, August 24. While the rain put a damper on the outside games of miniature golf and water-dunking, the inside festivities were a lot of fun. Free food from the Red River Roadhouse in Cranberry and the Pierogie Palace in Oil City were provided to all. Games were provided in the Gym for children of all ages. Members of all the area banks were on the scene and The Citizens' Bank offered a drawing for a DVD player. Congratulations to S. Kyper, the winner of the DVD player.

In the auditorium, the stage was set up for four different bands to perform. Chapter 9 performed at 12:15. This local rock band which formed in December of 2000 is headed by singer C.W. Snyder. Other members of the band include: Joel Balot, lead guitar and back-up vocals; Ty Best, rhythm guitar; Josh Botts, bass and back-up vocals; and Bob Montgomery, trap set. Chapter 9 performed a mix of original songs and cover songs of bands such as Seven Mary Three, Weezer, Tom Petty, Rage Against the Machine, Green Day, and the Rolling Stones. If you're interested in seeing Chapter 9 perform locally and you are 21 or over, they are playing at Billy's Rocks in Oil City on September 18 for their CD release party.

After Chapter 9 played, Latrobe Barnitz delighted students, faculty, and staff with his musical stylings on his guitar. The last events of the day included the jazz band CATRO and the cover-band Southern Nights.

FunDay 2004 was a great way for new students to be introduced to the campus, and for all students to get together. Thanks to all who attended and set-up this fun activity.

## CLEP Testing at Venango Campus

The College Level Examination Program here at Venango Campus is a great way for students to receive credit for classes they already know the material for. By earning qualifying scores on any one or more of the 34 CLEP tests, students receive credit for the non-major classes of their choice. While students only receive credit for this, and not a letter grade, the cost is just a fraction of what a normal course would cost at the University. To sign up for a CLEP examination, or to receive more information, contact Hope Lineman ext. 1273 or in her office, 215 Frame Hall.

Below is a list of the CLEP test dates for the 2004-2005 academic year. All test dates are on Fridays, and two test times are available, 8:30 a.m. or 11:30 a.m.:

October 15, 2004; December 12, 2004;  
February 18, 2005; April 15, 2005; June 17, 2005;

## Good Thinking!

The workshop for nursing students to help enhance test performance is being offered at a reduced price to Venango Campus students. Originally priced at \$49, it's now only \$20. This class is being taught by Melissa Mastorovich of STAT Nursing Consultants. Good Thinking! helps nursing students achieve success on nursing exams by identifying test-taking strengths, weaknesses, strategies, and preparation skills. The workshop is on Friday, September 17 from 9 a.m. to 3 p.m. To sign up, see Hope Lineman in 215 Frame Hall, or call ext. 1273.

## The New Student Apartments at Venango

While entering the campus on West First Street, it's hard to miss the brand-new student apartments across the road. We've been hearing about these apartments for months now, so now let's hear what the residents think of them.

"We like them. They just need a peephole for the door," says resident Corinne Servdio.

"Better than Pitt Bradford!" exclaims resident Lindsay Sims.

"I think it's nice I got my own bathroom," states Rebecca Krusey, another resident of the apartments.

"Ten times better than a dorm," says Beth Young. Josh Richards, the Community Assistant for the student apartments states, "These apartments are immaculate in comparison to any apartment in Oil City."

Right now, there are 20 residents in the Student Apartments at Venango campus. However, Emily Aubele, the Director of Student Affairs at Venango Campus, is still taking applications until they are full. That means there are still 11 spaces open. For more information or to apply for residence at the Student Apartments, contact Emily at 219 Montgomery Hall or [caubele@clarion.edu](mailto:caubele@clarion.edu).

## Voting in the 2004 Presidential Election

By Sheena Hoover

Did you know that the lowest voter participation in Pennsylvania and the nation has come from the 18-24 age group? While at this campus we have far less of this age group than at the Clarion Campus, it is important for citizens of all ages to vote in the upcoming election on November 2.

Why? There are a million reasons why, some people go blue in the face trying to push them on non-voters. These include that it is an inalienable right given to all United States citizens, it is key to the success of our democracy, it could be your vote that makes a difference, and so on. However, the most important reason you should vote in *this* election is simple. I have heard more people than ever arguing about who should be president: Bush or Kerry? Republican or Democrat? Everyone seems to be fired up about this election.

It seems, many people do not think Bush has been doing a very good job in government. These people will do anything to help get him out of office, including voting for the other candidate without knowing the facts first.

On the other hand, we also have the people who are dead-set on voting for Bush again. These people will argue and argue that the President has not made one single mistake in office. However, we all know that isn't true for any president.

In fact, I find a lot of people don't know what they are getting into when they start arguing about politics. Many of them, including myself, don't know all the facts. So, I think it's very important to our country for everyone to try to keep up with politics as best they can and always vote.

Speaking of voting, if you haven't registered, the last day for you to register is October 4. The law says that students are permitted under state law to register in the locality of the college or university they are attending, as well as at their home residence.

## Living in the Student Apartments

By Shawn Bennett

I live in the student apartments, and I think they are very nice. I believe them to be worth every penny.

The apartments include two bathrooms, a washer and dryer, four individual bedrooms with closets, a dining/living area, and a fair-sized kitchen. The cost of the apartments include cable in the living room, DSL Internet, phone access, and all utilities.

The Community Assistant for the apartments is Josh Richards. It is his job to ensure a pleasant stay for residents. Richards makes sure all the rules are followed. He's also able to let you in if you get locked out of your room or apartment. Richards is also the resident's connection to maintenance or other troubles students may have. He can be found either in the library or apartment 101 in Black Hall.

Different people in the apartments have their own rules so they can get along. The rule for my place is, "No dumb stuff." That implies things like no friends over at midnight and stuff like that. I cook most of my food because it is cheaper, and I like to cook. The apartments have ample living space. I like the relaxed atmosphere of being under no one else's orders. In essence, my apartment perfectly fits the title of "apartment" more than it would "dormitory."

## The Open House at the New Apartments

On September 16 at 6 p.m., the university held a community-wide open house of the new Venango Campus apartments in the parking lot on West First Street. Those invited to the event included the Clarion University Trustees, members of the Venango Campus Advisory Council, university and student leaders, community leaders, and all faculty, staff, students and the community. The special event was a fun time for all involved, and helped strengthen the university's relationship with the community. The event included live music by Phoenix, free snacks, coffee, punch and free student resident tours of the Elizabeth S. Black Hall and the Edward V. and Jessie L. Peters Hall.

At the event, Executive Dean Christopher Reber stated that the Venango Campus apartments are the start of a new system for the university because they are completely funded by the Clarion University Foundation, Inc. He also said a third apartment building, which will be three floors high, is set to be completed by Fall 2006. The new apartment building will house 24 more students, and funds for the building will be provided by Michael and Joyce Hughes and the Edward V. and Jessie L. Peters Charitable Trust.

President Joseph Grunenwald also spoke briefly at the event and stated that student enrollment is down from previous years at the university. In fact, due to a one percent drop in enrollment, the university as a whole has cut budgets this year. However, Reber stated that growth at Venango Campus has increased eight percent, which sets a record 700-student enrollment.

After official remarks, attendees toured the apartments. In fact, those lucky enough to tour Stephanie Helman and Karin Fink's apartment received homemade cookies to top off the evening. Now that's school spirit!

## Paul Plays it All—All Day!

On September 16, the Campus Activities Board presented Paul Order's musical performance in the parking lot by Montgomery Hall. Order's set-up consisted of four keyboards, acoustic, electric, 12-string, and bass guitars, acoustic and electric drums, an alto and tenor saxophone, a harmonica, a melodica, a mandolin, and the kitchen sink shown on the right which, according to Paul, has "acoustically tuned non-stick pots and pans." Paul played a large variety of tunes from artists including John Mellencamp, The Red Hot Chili Peppers and 3 Doors Down. It was a plugged and unplugged performance using state-of-the-art digital equipment for full sound effects. His unplugged routine was performed live on several instruments simultaneously. Students passing by seemed to think Paul's performance was quite humorous. You can find out more about Paul Order at [www.paulplaysital.com](http://www.paulplaysital.com).

## Phi Theta Kappa Blood Drive

PTK is hosting a blood drive on campus next week. The blood drive will be held on Monday, October 4 from 11 a.m. to 3:30 p.m. in the Rhoades Hall Gym.

Requirements to give blood are fairly easy for most everyone. Students must only be willing, healthy, weigh over 110 pounds and be 17 years of age or older. Students who have given blood within the last 56 days are not able to give blood again, but are encouraged to give blood at a later date.

A form of identification is now necessary to give blood as well. According to the American Red Cross, this has been instituted to ensure donors are properly identified in records, have not previously been disqualified from donating, and can be reached for further follow-up if needed.

## Provost Candidate Visits and Open Forums

Five candidates for provost and academic vice president will be visiting Clarion University for interviews over the next couple of weeks. The position entitles the candidate to serve as the chief academic officer for the university. During each of their visits to Venango Campus on the second day of their interviews, the candidates will be at an open forum from 10:45 a.m. to 11:45 a.m. in 208 Frame Hall.

It is important for faculty, staff, and students to attend in order to provide the candidates with a sense of what goes on here at the campus. It is also a good opportunity to discuss campus issues and questions with the candidates.

While one of the candidates, Dr. Linda Nolan, visited on Friday, the names of the rest of the candidates and the dates of their visits are as follows:

September 28—Dr. John Leipzig

## Become an Eagle Ambassador

Eagle Ambassadors are a new group of students who help to facilitate events on campus or in the community. It is a great way to get to know people and build relationships. The Ambassadors meet regularly and work with other clubs to make events successful. Clarion campus already has Eagle Ambassadors that help out in the community and on campus, and now the university is bringing this opportunity to Venango.

T.J. Jakubowski, an Eagle Ambassador, recently commented on the new experience of being an Eagle Ambassador. Jakubowski said the experience, so far, is pretty fun and students who are involved get to do many things around campus.

## Meet the Venango Voice Staff!

### Sheena Hoover, Editor

I am a communication major with a minor in business administration. I was part of the *Voice* last year as the assistant editor for part of my co-curricular requirement for my major. I have always enjoyed writing, and I especially enjoy music, so you may find I prefer to write about music if I have that option. I am a sophomore, and I am currently taking classes at the Venango and Clarion campuses. I currently reside in Cranberry.

I hope to make this year even better than last year for the *Voice*—and more importantly, have some fun with it!

### Shawn Bennett, Staff Writer

I am a local, traditional student from Rocky Grove. I am here at Venango to get an associate degree in applied technology in the technical field of computer information systems. I like to play video games and the guitar. Some might say I am a geek. I listen to rock music, and I hate country (not just the music, but the whole country lifestyle). I am still fresh to the whole college experience, but I like the atmosphere. I hope to meet new people and make new friends with this experience. I'll enjoy writing for you this semester.

### Jessica Anna, Staff Writer

I am a junior working on my Bachelor of Communication. I attended Venango Campus for three years, and I am now starting my first year of commuting to the Clarion Campus. I am writing for the *Voice* in order to fulfill my co-curricular requirement for my major. I have not yet decided on what career path I would like to take when I graduate. Since I am in Clarion three days a week, one of my responsibilities will be to keep Venango informed of major events in Clarion. I look forward to writing for you in the *Voice* this semester.

### Broock Winger, Staff Writer

I am pleased and excited to announce that I am a new member of the *Venango Voice*. My name is Broock Winger, and I am a 2004 graduate of Oil City High School. Currently, I am attending the Venango Campus fulltime and majoring in communication. I hope, throughout the semester my articles are informative and pleasurable for you to read. Writing is something I enjoy doing, and I would like to share it with everyone. Thanks for reading!

## Lethal Luau Review

By Shawn Bennett

I participated in the "Lethal Luau" on September 27. The food was great, and most dishes included pineapples. The mystery at first was "where are the actors/actresses?" The crew got lost on the way to the campus, but they made it on time. The murder happened before everyone showed up. When the show started, people were introduced and assigned to mingle. Everyone's job was to attempt to get clues from these people by questioning them or by completing a special task. Darlene Hartman sang "Surfer Girl" by the Beach Boys. After collecting the clues, there was a question and answer session between participants and suspects. Participants then had to get more clues to figure out the killer and motive. It turned out that "Bodacious-Joe," a professional surfer, murdered Detective Chase, and his motive was self-preservation. The prize for figuring out who and why was two free tickets to this year's winter dance.

## UAB Changes CampusFest This Year

By Jessica Anna

The Clarion Campus University Activities Board is changing the organization of CampusFest 2005. In the past, CampusFest had activities on two days. One day was a concert with three performers of different genres, and the other day was a comedian.

Assist director of Campus Life Jamie Bero said they are considering making CampusFest a four-day event, due to losses on last year's rainy event. Music would be on Thursday, Friday, and Saturday, with a different genre each day. Genres would include rock, country, and urban. A comedian would then be set to perform on Sunday.

Ryan Whitney, chair of the CampusFest committee said, "My ideal plan is to do at least two bands per night: a local band, maybe a medium band, and then our opening national act."

It was believed there may not be a CampusFest this year due to last year's losses. However, CampusFest is able to continue due to a budget increase allowed by Clarion's Student Senate. This increase was covered by a \$20 increase in the activity fee from \$116 to \$136.

## The New UPMC Hospital

By Shawn Bennett

The new University of Pittsburgh Medical Center hospital in Cranberry was recently dedicated. The Franklin and Oil City hospitals will now be closed and replaced with this newer, more advanced building in Cranberry Township, right off of Route 257. The new UPMC Northwest is the result of a 1993 lawsuit that stated that the Oil City hospital and community and the Franklin hospital and it's community ran against each other. The settlement in the lawsuit was easy, a new state-of-the-art hospital near Franklin and Oil City. However, the settlement stated that this new hospital must be outside of both cities, and, soon after, the spot in Cranberry Township was picked for construction.

The new hospital will have heated sidewalks to keep ice from accumulating and a newer security system that will prevent kidnapping. The hospital will be fully functional October 8.

## Get Involved on Campus!

Now that you know your classes, professors and have made some friends, it is time to see what Venango Campus has to offer you in the way of involvement. College is more than the classroom experience. It is, many times, the “other stuff” that has a way of shaping your lifelong path.

The Campus Activities Board has five committees that are not well staffed at this time. It would be great to have some new freshman blood to get these committees alive again and to get more students participating in the provided activities. In the spring, these committee members get to go on a retreat and plan all the great events to offer for the next academic year.

There are a number of clubs on campus that could use help to come alive again. The Outdoor Club, whose members used to do bike rides, canoeing, camping, etc., has had no action thus far this semester. There is also a Ski Club you need to get involved in now so you can participate in skiing in the winter. The advisor for both of these clubs is Dr. David Lott. You can contact him here on campus at [dlott@clarion.edu](mailto:dlott@clarion.edu), or by coming to 232 Montgomery and signing the “Interested in Clubs” sheet on the door. We also have a Business Club, Nursing Club, Adult Learners Organization, Student PA State Education Association, Psychology Club, and Legal Assistants Club. Please get involved and let your skills outside the classroom develop. Involvement in clubs and organizations is the icing on the cake of your college experience. Come and enjoy the journey.

If you are interested in any club or organization, you can e-mail the activities coordinator at [cmusch-week@clarion.edu](mailto:cmusch-week@clarion.edu), or call ext. 1279.

### Submitting to the *Voice*

Submissions ranging from opinion pieces to original artwork, poetry, and prose may be submitted via e-mail to [thevenangovoice@yahoo.com](mailto:thevenangovoice@yahoo.com) in the form of a Microsoft Word document attachment, or may be dropped off at the *Venango Voice* office located at 226 Montgomery Hall. Submissions will be accepted until 3 p.m. on Tuesdays for the following week's issue. Please keep this in mind when submitting time-sensitive material.

## The Return of 20 Questions!

Last year, we interviewed professors and staff on campus and published the answers to the 20 questions in the *Voice*. This year, we are going to start over again and include some of the new and returning professors and staff. To make it interesting, we are throwing out the old questions and asking for help from you—our readers—to make some new ones. If you have ever wanted to learn more about your professors, put them on the spot, or have a really good question, e-mail your questions to [thevenango-voice@yahoo.com](mailto:thevenango-voice@yahoo.com).

### MTV's 'Rock the Vote' and Real World's Syrus to Visit the Campus

Yarbrough will also be available after the presentation to answer questions and interact with program participants.

This event is open to the public, so feel free to bring as many friends as possible!

## From the Editor's Desk: A Message To Our Readers

I was recently starting to clean out the *Voice* office, when I came across the first issue Dave Jones took over as editor last year. In the editor's article he wrote, he asked for participation from all students on campus, and I kept thinking to myself how much he was right and that I should write an article like that to our current readers. However, the more I read, I realized I could not possibly say it any better than Dave did, so I'm recreating his article for everyone to read. I cannot stress enough how important **your** contributions are to keeping the *Voice* alive and kicking.

The following excerpt was written by David P. Jones upon his new position last year as editor.

"....One of the first things I did upon assuming the new mantle of leadership was flip through a binder of old *Voices*. I chuckled as I typed the word "leadership" by the way, because as of this publication, I happen to be "an army of one" to use the phrase. At any rate, the first thing I noticed was how dramatically different today's *Voice* looks from its predecessors.

It seems in the past, the *Voice* was a thriving weekly periodical that relied on the contributions of its students for the vast majority of its material. I discovered issues as long as six pages, and positively crammed with reader-contributed articles. Submissions ran the gamut from poetry to drawings to essays to rants. Debate filled the pages as students wrote letters to the editor concerning issues of the time.

Clarion University-Venango is a busy, thriving place. Enrollment keeps growing and technology is improving. I challenge you, the reader of this publication, to share it with your compatriots. It is, after all, the *Voice*, not the *Silence*. It is your vehicle for self expression, communication, and procurement of information."

Please take into consideration what Dave was saying last year. It was his wish then, as it is mine, to make this publication a joint effort between our staff, myself, and all the students of Venango Campus. Don't be afraid to be heard.

## From the Editor's Desk

By Sheena M. Hoover

A couple weeks ago, there were some priests or pastors handing out mini bibles outside on the sidewalk in front of Montgomery Hall. For the second year in a row, they offered me a free bible and I, knowing full well exactly what they would think, said "no, thanks." Now, before you place judgment on me, let me tell you I am not a Satan worshiper or an atheist. However, I think it is my right to say no if I don't want it. I do not see why I should have to be confronted with this when I'm going to class. In fact, I really do not like to be put on the spot about religion. Not taking a bible made me feel like I was sinning, but to me, trying to confront people with bibles and make them feel bad for saying they don't want one is really trying to sell Christianity and, to me, that *is* a sin. I know there are some people on campus who are atheists, or who are just like me and don't need a bible, who are somewhat offended by these confrontations.

I got to thinking about it, and at first I didn't see it as being any different than the representative who was here from Reese Teleservices trying to recruit workers or the lady that was here trying to get people to register to vote, until I realized those topics aren't as controversial as religion. We usually know in advance when these other people are going to be on campus so, if we want to, we can avoid them. My point is that it made me uncomfortable and I'm sure some people have the same opinion as I do. On the other hand, I'm sure other people don't mind it and think it's a nice thing to do. However, I just think it's a lot different when you are confronted by someone trying to get you a job or register you to vote than trying to push a bible on you.

## It's Going to Blow!

By Jessica Anna

Scientists warn Mount St. Helens is going to erupt for the first time since May 18, 1980. Steam can be seen billowing out of the volcano.

Mount St. Helens National Monument, out of Washington state, reported, "A burst of ash and steam on Friday was followed Saturday by a smaller plume of steam and a volcanic tremor. A smaller extended volcanic vibration was detected Sunday."

Scientists believe hot rocks touching a glacier is causing the steam. Another indication the volcano is going to erupt is that the lava dome is rising. Carolyn Driedger, a hydrologist, says many think there is fresh magma in the mountain. *The Derrick* reports that Jeff Wynn, chief scientist for volcano hazards says, "we believe new magma is involved. And new magma is potentially more gas rich and therefore more explosive."

## Texas Holdem Poker

By Jessica Anna

There is a new craze hitting the country: Texas Holdem poker.

Since the "World Series of Poker" has gained viewers on television, more and more people are playing. From high schools, to colleges, to co-workers—everyone is getting in on the action.

Texas Holdem poker is a relatively simple game to play. The dealer gives everyone two cards. You can decide if you want to fold (end your turn) or you can put in a bet and continue to play. The dealer then shows you three more cards. This is the beginning of the community cards. You can match the cards you have with the community cards to improve your hand. After you see the three cards, you can bet or fold. The dealer then shows you another card. This goes on one more time. After five cards are in the community pile and the betting is completed, it is time to show your cards. The person with the best hand wins.

## How Scary is AIDS Today?

by Jessica Anna

What's scarier than meeting Freddy Krueger on Halloween? According to the Pennsylvania Department of Health, many people with HIV don't even know they have it.

In the article *Common Sense About AIDS*, presented by the American Health Consultants, "with more than 200,000 cases of AIDS reported and an additional one million people believed to be infected in the United States alone, health officials predict that everyone will eventually know someone who is infected with AIDS."

If everyone knows someone with AIDS, and many people don't even know they have it, it is important to know how you can and can not get this incurable disease.

"AIDS is caused by a virus called HIV," reports the Pa. Department of Health. They state you can't get AIDS from eating or drinking after someone who is infected, nor can you be infected from shaking hands or hugging. American Health Consultants say you can't get it from "sweat, tears, urine, or excrement, unless those substances contain blood."

You can get AIDS from "vaginal, oral, or anal sex" and "when sharing needles to shoot drugs, pierce body parts, make tattoos, or for any other reason" according to the Pa. Department of Health. It is important to know how to protect yourself. Always use a condom and use it properly. If you do shoot drugs, don't use dirty needles.

For more information, contact the National HIV and AIDS Information Service at 1-800-342-2437, or visit the local Family Health Council in Seneca.

## Being Picked Last

By Shawn Bennett

I'm always—never picked first. I'm usually never picked somewhere in the middle. I am, more often than not, picked last. It is not a good thing to watch as your friends are all picked before you. It feels worse when your friend picks someone they know less than you just to win. This bad feeling comes from a human need to be involved. If you are picked last, you feel like there is less of a need, or even no need, for you at all.

Keep in mind that I am not a psychology major or anything. I am one of those people who likes to be involved. My graduation testimony: I was sitting there with the rest of the Rocky Grove class of 2004. The class government sat in the front with their sashes or whatever they are called. I sat in the second row on the end. Each person on student government got to give a speech. Everyone who got honor roll got a special applause. I missed that by one grade—grrr. Someone who excelled in a certain class got a pin. Everybody who did any extracurricular activity got to stand and take a bow. I did nothing, so I got nothing because I thought I did not need to be involved. Because of that, my graduation was ruined. I felt terrible. I felt like you would when you turn down the chance to go to a friend's house. You see them in class on Monday and they tell you about this awesome party you missed because you turned down a visit over the weekend. Whether or not you like it, I feel no person should be without involvement. That's why I decided to run for student senate, and become a member of CAB and be a newspaper staff writer. That, and I think school newspapers rule!

## "From the Editor's Desk"—

### October 4 Response

By Dr. Joan Huber

I've been seeing the Gideon Bible reps all my teaching life, and they are NEVER pushy. We're perfectly free to walk by them and they say nothing to us, always. But depressed people have many times told of being saved from suicide by finding one of those Gideon Bibles beside a hotel bed. I've even cribbed a few last-minute quotes for presentations: Biblical references abound in English and American literature.

And what's so bad about religion? They all tell us to be good to our neighbors and to pray: a great de-stressor that medicine's now looking into. Some religions even ask us to develop our God-given abilities, which might entail a course in logic. To mistake the part—those who act pushy and intolerant in the name of religion—for the whole—that includes the numberless believers who share only when asked—is to commit not a sin, but a logical fallacy.

## From the Editor's Desk

Religion isn't exactly my best subject to talk about. I previously stated I am not an atheist—however, I don't like being confronted with Christianity while on my way to attending classes. Therefore, maybe I wasn't the best candidate to write an article on religion. My point in doing so was to start some debate on the subject and get a response. In this mission, I did succeed, as I received the most comments yet this year. However, I was hoping to get more responses and articles from readers—hint-hint.

In response to Dr. Huber's article, I believe she is entitled to her opinion, and I agree those little bibles may be capable of saving lives—and that is a very good thing. However, I was informed the Gideons were only supposed to lay the bibles out for students to take if they wanted.

I, and the key word is I, believe religion is, if not controversial, at least a touchy issue. If it were not, why would people go to war over their religion?

## MTV's 'Rock the Vote' at Venango

By Jessica Anna

MTV's "Rock the Vote" came to Clarion University-Venango Campus Tuesday, October 12 at noon. For the event, Syrus Yarbrough from the Real World-Boston was on hand to speak.

Syrus spent a few hours in Rhoades Auditorium talking to a small group of students and faculty.

The presentation was an open forum that encouraged discussion. Syrus said an "open forum is where we learn".

Discussions were on a variety of different issues. The reimplementation of the draft was discussed, as was military personnel, felony voting, the Supreme Court, abortion, the education system, and many other topics.

Syrus said he felt the draft is "going to be a reality for us." He says the military focuses on the "have not's" during recruitment. He stated he thinks the education system needs help. When talking about abortion, he asked the women, "Are you gonna let a man tell you what to do?"

When asked what topics he was passionate about, he said felony voting, war and the education system as examples of things that affect his life. He said his brother was charged with a felony and his right to vote was taken away.

Syrus said he has been going back and forth between candidates. His reason for speaking out with MTV's 'Rock the Vote' is to encourage people to be educated voters. He stated several times that we need to learn about topics that make a difference to us and we need to check the facts.

Syrus encouraged us to be active by saying, "You can't complain if you don't vote!" He gave all the students who attended a little "food for thought." Syrus also said he feels the most important part of his job is to let people know it is okay to be opinionated. "You have a voice, make sure it's heard."

While a representative from the Democrat Party came to the event, no representative of the Republi-

Party attended, even though they were invited. When asked about the matter, Syrus said it happens more than 50 percent of the time.

Overall, it was an interesting and informational forum for all the students who did attend.

## What's Psychology Club All About?

By: Kristen Padalino

During Summer 2004, the Psychology Club at Venango Campus attended the American Psychological Association conference in Honolulu, Hawaii. We had a chance to listen to the latest research being presented, as well as to hear Albert Bandura speak about his latest program on modeling behavior. We enjoyed a day-long tour of the island of Oahu, attended a luau, and experienced Hawaii's wonderful food, entertainment and weather. In August, Psychology Club will be attending the APA conference in Washington, D.C.

Psychology Club stays active by sponsoring guest speakers, taking a trip to the Clarion Campus to meet fellow psychology faculty and students, holding a Christmas community service gift drive, a candy sale, and many other activities each semester.

We welcome students of all majors who are interested in planning for the upcoming trip and organizing activities for the semester to join us for a meeting at 12:30 p.m. on Tuesday, October 26 in Montgomery Hall. Hope to see you there! For more information, please contact Carrie Forden, 306 Montgomery Hall or club president, Kristen Padalino at s\_klpadalino@clarion.edu.

## Lazer Tag Review

By Shawn Bennett

Last week, the Campus Activities Board held a laser tag event in Rhoades Gymnasium. I participated as soon as I got out of class. For those who have never played laser tag, the set-up is simple—there are obstacles and it is dark with spotlights. You are given a gun attached to a pack you wear around your waist. If you get shot you have to go to a specific location to be put back in the game. The object of the game is to shoot as many people as you can. The time limit for the laser tag here on campus was five minutes. The two people who supplied and set-up the equipment played a couple of rounds with everyone.

I think it was very enjoyable. Except the part where Matt Folwell was not playing fair, but it was all in good fun.

If you weren't there and you complain about there being nothing to do here on campus, you have no one to blame but yourself.

## Baseball MVP Dies at Age 41

By Jessica Anna

Ken Caminiti, a 1996 National League Baseball MVP, died in the Bronx of a heart attack on October 10. The medical examiner's office did not rule on the death because toxicology test results take up to 10 days to be returned.

Caminiti played for 15 years, ending in 2001. He was a three-time all-star third baseman and led the San Diego Padres to a division title.

Before his death, Caminiti admitted he had violated his probation because of cocaine use. He was on probation because of a 2001 cocaine arrest.

In May 2002, Caminiti told *Sports Illustrated* he used steroids during his MVP year.

## **Cranberry Development is Advancing**

Ever since Wal-Mart came to the area, Cranberry has been booming. With the coming of Staples, McDonald's, Busy Beaver, and finally, the new UPMC hospital, Cranberry has become the place for new businesses in the area.

With all the new businesses so far, it's always interesting to hear of more. According to *The Derrick* newspaper, a hotel, restaurant, and other businesses are planning to become part of this boom in Cranberry.

The owners of the Quality Inn and Conference Center, formerly the Inn at Franklin, are purchasing a 33-acre plot along Route 257. This property, located behind Lezzer Lumber near the Cranberry Mall, will feature a 60- to 80-room franchised hotel. Richard Huff, real estate broker and administrative director for MBGG Hotels Inc., stated the building will be designed to accept 40 to 50 additional rooms in the future. Adjacent to the hotel, a 24-hour nationally recognized franchise family-style restaurant is in development.

The remaining land being bought may include a drugstore, a branch bank and possibly some condominiums on the property.

Other growth in the area includes the work continuing on the \$6.3 million project of constructing a Home Depot off Route 322 near Staples. The Home Depot is expected to open in mid-December and will staff 12 to 150 full-time and part-time employees.

More construction is planned for the \$72 million UPMC Northwest Hospital and attached Behavioral Health Center, including a building to house a rehabilitation unit and a transitional care center, as well as another building for a child care center.

JRA Development of Pittsburgh is bringing in more tenants to the new strip mall near Route 322 between McDonald's and Busy Beaver. Currently the two businesses in the strip mall are the Social Security regional office and Bear's Mattress Den. Joining these tenants will be organic food seller God's Little Garden, the Check 'n Go cash advance service, Tony's Pizza Shop, and a Chinese gourmet buffet.

In addition, JRA is also considering construction of single-family homes, duplexes and townhouses near Route 322. They are also allowing for another strip mall in front of the Home Depot on Route 322.

## From the Editor's Desk

By Sheena Hoover

After educating myself a little from watching the presidential debates the past several weeks, I have to say Senator John Kerry is quite convincing. In the second debate, Kerry made everything sound so simple, it was hard, even for me, not to believe the words coming out of his mouth. However, both President George W. Bush and Senator Kerry avoided the question of how they were going to get the money to fund so many things, as well as lessen the deficit. *This is really the most important thing.*

While Kerry plans to raise taxes for those making over \$200,000 to account for some of this money, this is only one percent of the population. With all of his ideas and causes he wants to give money to while decreasing the deficit by 50 percent within four years, I really wouldn't put it past him to raise our taxes, as well. Also, while raising one percent of the taxes for the rich may seem fair to those in the middle and lower class, eventually this encourages people to slack off to some extent—so how is that helping us if we become less productive as a nation?

According to Kerry, he wants to do everything concerning Iraq just a little differently than Bush. However, his main goal is to recreate strong alliances and blame Bush for going ahead with the war on terror and going into Iraq without the support of all our alliances and the U.N.

My main problem with Kerry's stand is we tried to keep our alliances, but they did not agree over Iraq. I, personally, feel we did just about everything we could do before going to war, and we tried our hardest to gain support from our alliances and the U.N. repeatedly and for way too long. However, our patience on the matter and the fact that we kept delaying war was necessary to try to prevent using military force.

The point is stated better by State Senator Mary Jo White (R) from District 21, who said, "Mr. Kerry seems to have a great deal of confidence in diplomacy and the United Nations, but I think the U.N. has shown itself as incapable, and we do have allies...We all don't like to use force but there are times when it is necessary."

These are just a few of my thoughts on the matter. Please feel free to submit your ideas on the subject.

## The Victim is the Peacemaker

By: Shawn Bennett

Over the weekend, I had the inspiration to write. Unfortunately, I was at work and I had already taken my break, so I had to wait until I got here to put it in the paper. I actually found my muse and was inspired to write due to an occurrence that happened at work.

I work at the local Burger King—no not the one that just closed in Cranberry. One day, one of the cooks decided to have some fun to enjoy his night at work. Just to be silly, he yelled "Fish Market!" and tossed a large bag of French fries across the kitchen to his friend who yelled and caught it. Before that, they had fun playing "Fish Market" on other occasions as well. But, this day was different. This day, they decided to play with a bag of chicken tenders. One of them yelled, "Fish Market!" and the bag was thrown and caught an appliance and fell into the 350 degree oil and splashed a cashier. The oil hit her contact lenses and her face, but most of it landed on her arm. The oil was discarded and the two were scolded. The reason they were not written up is because the cashier who was splashed talked to the boss and calmed her down. I think she was minimizing the seriousness of the issue, but, nevertheless, she was determined to keep everyone from wiggling out.

You would think that, being the victim, the cashier would be the most upset/panicked/scared. That's not how it was, the cashier was the calmest.

It was inspiring that someone who experienced that much danger could be calmer than everyone else.

### Student Senate Update

By Shawn Bennett

This is the Student Senate meeting update for October 18. First, say hello to your new student senator, Haley Winger!

There are several events scheduled for students. On November 9, there will be an informal hangout with the dean from noon to 1 p.m. in the Rhoades Lounge. During this meeting, students can chat, discuss issues, or just tell him what a great job he is doing.

The "designated smoking location rule" issue is also being looked into and Student Senate members could use suggestions on a compromise. Send them an e-mail or chat with them yourself. A forum to discuss this matter being planned.

If you have issues about anything in general, there will be a town meeting, attended by Student Senate, in Rhoades Lounge on November 8 from 1 p.m. to 1:45 p.m. This is a good opportunity for students to discuss any issues of concern.

Peggy Lee is going to perform a survey about the "common hour," which is class-free hour available every week for clubs and organizations to meet. Do you think it is a good idea, and is it worth it?

Other matters that were discussed at this meeting are the stairwell for residents, the unprint policy, and Student Senate office hours.

## Eagle Dollars

By Jessica A. Anna

Eagle Dollars are now in use at our university. The number-one reason for having the "money" is to buy paper for printing. You can also use them at pop machines (where you can slide your card) and at university bookstores.

A minimum of \$50 is required to begin using Eagle Dollars. Any balance on the card will roll over for next semester; if you're graduating they will send you a refund check.

Most people I talked to are upset with Eagle Dollars. They feel \$50 is more than enough, even too much. Most students are only using the dollars for on-campus printing, which only costs five cents a sheet. Some students estimated they haven't even used \$5, since Eagle Dollars went into effect. The buzz on Clarion campus is that Student Services made purchasing the Eagle Dollars a \$50 minimum to avoid a lot of foot traffic in their office.

## Crisis Center Staff Member on Campus

The Crisis Center, a center serving victims of domestic violence, sexual abuse and violent crime, has a staff member on campus for anyone seeking their services.

Rosie Griep is on campus from 12:30 p.m. to 1:30 p.m. every Monday in 234 Montgomery Hall. If you, or someone you know, are a victim of a violent crime, in an unhealthy relationship, or need a protection from abuse order, you should stop by on Mondays or call the Oil City office at 677-4005.

## Fall Billiards Tournament Reminder

The Fall Venango Campus Billiards Tournament will still take place Saturday, November 6, in Rhoades Center for both female and male divisions. Sign-up sheets for both brackets are available until November 4. Just as last year, APA Pool League Rules will be used, and a copy of the rules will be at the tournament.

The pool tournament will be based on a best of three wins for each advancement unless there is a forfeit. Venango Campus student IDs will be required for all participants. Bracket pairings will be drawn at 9:30 a.m. on November 6, with both tables being used. The first-place winner in both divisions will win a \$25 gift certificate for the Venango Campus Bookstore. Second-place winners will receive a \$15 gift certificate.

The tournament will start at 10 a.m. and end with winners in both brackets that same day. If students do not show up or are not available to continue, they will forfeit after a five-minute grace period. Lunch of pizza and pop will be provided during the tournament for all participants.

## The Early Bird Can Have the Worm

By Shawn Bennett

I woke up today to sit in on my first Student Senate meeting. Although it's true I am not a member of the student senate, that doesn't mean I can't listen to what they discuss. The only drawback is that by not being on the Senate, I am voluntarily waving my freedom of speech. I don't have anything against it, it's just that it was difficult. You, as the student body, can also sit in on a Student Senate meeting under this condition. If you have any comments or information you would like to share, feel free, but only after the meeting. The meetings are every Monday morning at 7:45 a.m. If you can keep quiet until the meeting is over, it is a great experience. You can learn what your Student Senate is discussing and give suggestions right after the meeting. A contact list of Senate members will be included in the next update. Student Senate is the best way to make changes on campus because they make a lot of important decisions. You have no room to complain if you make no effort to speak with one of your student senators.

## From the Editor's Desk

By Sheena Hoover

I recently read an article in *The Derrick* dealing with the fact that Halloween is on a Sunday this year. It seems that a lot of people around the country don't want to send their children trick-or-treating on the Sabbath. They don't believe it is right to dress their children up as ghosts and goblins because it is a holy day. So, instead of enjoying the holiday with the rest of the children, some children will be celebrating it on the Saturday before Halloween, or not celebrating it at all.

Personally, I don't see the reason for all the fuss. If you looked at Halloweens of the past, you would have noticed that a lot of children aren't dressed-up as evil characters, but a lot of them have cute, cuddly, perfectly angelic costumes. Are you going to take away the "specialness" of Halloween from your daughter or son who is dressed-up as an M&M just because Halloween falls on the day of rest this year?

## The LSC Changed My College Experience

By Christine Clark

I imagined college to be different than what I discovered it to be. I thought it would be the high school experience I never had because I was educated at home. Reality hit; this is hard work. I want to encourage you to get help if you need it, as I did. Don't let yourself struggle and get behind—the people in the Learning Support Center are here for you.

I couldn't have made it this far without their help and support. There's a common misconception that you only go for help if you are slow or stupid. That's not true. Some of those who are now tutors went for the help they needed and are now helping others.

Swallow your pride and get the help you need. Check out the great people at the Learning Center, your success is worth it.

The LSC is located in 318 B Montgomery Hall.

## Beware of Bambi

By Jessica A. Anna

As I know all too well from Friday night, deer are on the move. Motorists are encouraged to be cautious of deer on roadways. Deer cause 1.5 million accidents a year. During mating season, mid-October to mid-December, deer are more likely to run onto roadways. Drivers always need to wear their seatbelts and use high beams when possible. Be especially cautious of deer between sunset and midnight, as well as right before sunrise. If a deer is in your path, do not slow down or swerve into the other lane—you could hit another car. Remember, deer usually travel in groups. So if you see one, there are probably more. If you hit a deer, don't approach it because they have sharp hooves. Do call the game commission or your local law enforcement if you hit a deer.

I think Shawn had only half the truth when interpreting the happenings of Student Senate Meetings. Venango Campus Student Senate meetings are open. Any student may attend. Although it is true that if you are not a senator you don't get to participate in the conversations of the meeting, it is not true that the general student body cannot be heard. If you have something you would like to address, you should contact the president or a senate member and have yourself and your concern made part of the agenda for a certain meeting. That way you can participate in that discussion all you like. So, if you have any concerns that you would like to discuss at Student Senate meetings, fire away! Get it on the agenda and then show up on a Monday morning at 7:45 to have your say!

## Attention Bowlers

Just a reminder that there is bowling at Seneca Lanes on Route 257 in Seneca from 9 p.m. to 11 p.m. every Monday. The fee is only \$2.50 for students to bowl for the entire two hours. So take advantage of this fun activity for students!

## Touching Base

By: Brett E. Lovett

Although I feel compelled to write this, I am not sure where to start. While I was at work on October 14, I got a phone call telling me that my grandfather had passed away. My grandfather had cancer, and it had spread fast. I work in a group home and give 24-hour care to four clients about whom I care very much. My shift was not over until Sunday morning, and I made a decision that there was not much I could do at home so I stayed at work where I was really needed.

Now let me back up 18 years. My parents were divorced when I was 12. When I was around 16, I stopped talking to my father, aunts, uncles, cousins, and yes, my grandparents. Just after graduating high school, I moved to Arizona, and after being there for almost nine years by myself, I decided to move back.

After being in Pennsylvania for only several months, I found out that my grandfather had cancer. As a healing technique for myself, I decided to go to his house and see him. I was not sure what to expect, I thought maybe I would even get a door slammed in my face. To my surprise, I was welcomed into their home where we visited for an hour. I still did not feel the connection or love, but I knew I did the correct thing.

Two weeks ago I heard that my grandfather was not doing well. So, again, I went back to see him. There was not much said, but I made the effort to go and it was all a healing process for me. He died only two weeks later in his home with several family members surrounding him. The next day, which was October 15, I got a call asking me, his grandson, who had only seen him maybe four times in the past 18 years, to be a pallbearer and, of course, I accepted. On Sunday, I went to the calling for him and the next day, I helped carry my grandfather to his final resting place.

My point is this: At the calling I saw aunts, uncles, cousins and many other family members I had not seen in years. These were cousins I played with while growing up, but somehow small problems, issues, and feelings came between everyone. I have

many cousins and family members who live within 15 miles of me and I have several cousins who live in places I don't know.

Why do we, as people, get so fired up over such stupid problems and then let those problems come between everyone? I saw people I should have known but I had no idea who they were. I even saw a person there who is a professor at this very college that I had no idea was related to me.

My point is this. Every person who picks up this article and reads it, I know there is someone who came into your life and is no longer there because of something small and insignificant. Do something about it—pick up the phone, a pen, or e-mail—whatever you have to do, but let them know how you are. I know that if I did not get to see my grandfather the few times I did, I would have truly regretted it.

## I'm Sorry

By: Shawn Bennett

I have heard that my article about sitting in on the Student Senate meetings has been misinterpreted. I made the senate sound like (insert a few choice words). That was a mistake on my part. The point about being able to speak was made to me with such emphasis and on several occasions before the meeting, that I felt inclined to make the same emphasis one time, but I now know that I was too sharp about it. Your senators are friendly and want the student body to be happy. So I am writing this in hopes that you will not make false judgments on your senators because of my miscommunication. I hereby declare this my last opinion piece on the Student Senate.

Scheduling classes has been quite the task the last couple of times around for me. Since the classes offered in my communication major at Venango are extremely limited, I have had to start taking classes at both campuses as a last resort, and next semester isn't looking much better.

It seems I will only be taking one class at Venango because I can't even fit my business classes that I need to take on a different day than my classes at Clarion have to be. I think the main problem is that there's not enough choices at either campus. Almost all of the Communication classes at Clarion that I still need to take, which are quite a few, are only offered on Tuesdays and Thursdays. They're also all basically at the same times on Tuesdays and Thursdays, bringing on quite the conflict. While I understand the people doing the scheduling probably know a lot about it, I really think it would be more helpful to the students if there were more options. For example, since most of the communication classes (besides the 100-level ones) are only offered between 10 a.m. and 12:30 p.m. on Tuesdays and Thursdays, it would be better to offer some of them on Mondays and Wednesdays later on in the afternoon, even if a different professor had to teach the class.

I think the other reason why it is getting so hard to schedule classes is there need to be more ITV options. I know Venango is a smaller campus and can't have as many class options as Clarion. However, when there are seven of the same class being offered at Clarion, and only one of those is an ITV at Venango on Tuesday and Thursday, it seems it would make more sense to offer at least one other one as an ITV to Venango on Monday and Wednesdays. I don't necessarily love taking ITV classes, but I don't mind taking them if I have to. It's a whole lot better than driving up to Clarion all the time.

As always, that's just my opinion and a voice of a frustrated student. I'll end up getting my classes scheduled, driving my two days clear up to Clarion and taking my one class here without too much difficulty. I just wish there would've been more options for me while I was here at Venango. Because next year, I won't be here anymore to complain. It'll be up to someone else whose clenching their teeth trying to schedule classes they need to take.

## Another Response to "The Early Bird Can Have the Worm"

By: Angie Shontz, Student Senate President

As the Student Senate President, I would like to clarify some statements made in Shawn Bennett's article, "The Early Bird Can Have the Worm," that may leave readers with the wrong impression. Senate's vision and purpose is to work cooperatively with the student body to make Venango Campus an overall better place for students. As a group, we are exploring a variety of ways to be consistently accessible to students. That includes sponsoring open forums, holding office hours, and soliciting feedback and ideas from peers. Another way we try to communicate with the student body is through a weekly report in the Venango Voice, which is why we asked Shawn to report the Senate meetings in a weekly column. Our hope was the students who could not attend the meeting would have an opportunity to know what was being discussed.

Shawn may have misunderstood a process common to parliamentary style meetings and consequently left readers with the impression that senate is not interested in listening to student concerns. Senate is an official governance organization of the university and has to conduct the meetings according to certain rules of order. The rules of order ensure a fair process of discussion and consensual decision-making on issues. The rules also allow for the orderly flow of business in a very short period of time. At the conclusion of the meeting, general discussion can occur, and agenda items can be added to the upcoming agenda.

Senate welcomes anyone to our meetings. We hope students, faculty, and staff would be involved in the campus, and we want to represent students in the best way possible. We try our best to represent our constituency to the best of our ability. It happens best when students talk to Senators about important upcoming matters that concern our campus. I hope you will see Senate as an ever-changing body working to fit our ever-changing student body. Thank you in advance for your support of your elected Student Senate.

## Community Playhouse Brings 'Over the River and Through the Woods' to Venango

The Community Playhouse, Inc. is offering a free showing of Joe DiPietro's hilariously funny family comedy, "Over the River and Through the Woods," on Thursday, November 11. The play will be held in the Rhoades Auditorium at 8 p.m.

The play is about a single, Italian-American guy named Nick, from New Jersey. He sees both sets of grandparents every Sunday for dinner, which is a routine until he informs them that he's been offered a dream job as a marketing director out West. When he tells them, the news doesn't sit very well and thus begins a comical series of crazy schemes to keep Nick around. This includes bringing the lovely, and single, Caitlin O'Hare to dinner as bait!

Curtain time is at 8 p.m., so students, faculty, and staff should arrive early to be seated. It should be a fun event for everyone, and it is free. So don't miss a night of comedy and drama at the campus!

## Realizing

By Anonymous

Take a look in the mirror  
tell me what you see  
'cause in reality  
you deceive everyone  
especially yourself

at first you look  
like any other person  
like you know who you are  
but deep down inside  
I see past that  
for I have encountered  
your true behavior

it must be nice  
to say things and not  
have meant a word of it  
all the encouragement  
was for nothing at all  
you weren't really proud  
of me or my actions  
you laughed behind my back  
I was someone to look down upon  
and that's just what you did

You took my sorrows  
and brought them out  
only to toss away again  
only this time I have  
more pain and hatred  
than before

Someday you will realize  
that I will not die  
someone who was  
unheard of and unappreciated  
you will learn  
and the day will come  
when you come runnin' to me  
you shall cry in my eyes  
and face your dreams  
like I faced mine  
and when they are shut down  
right in front of your face  
only then will you know  
the pain you caused me

## Voting in my First Presidential Election

By Jessica A. Anna

November 2, 2004

Today I am going to vote in my first presidential election. I have voted in local and state elections in the past. I already know what candidate I am voting for.

I think no matter what candidate you are voting for, it is just important that you vote. We are all old enough now to know that issues the candidates talk about do and will affect us. This election is especially important because of military issues, college funding issues, abortion, and many others.

I hope the excitement over voting in the presidential election makes people realize how important voting is. I hope it encourages more people to vote in local elections, because those are just as important as a presidential election.

Young people need to stay knowledgeable and get involved in politics.

Now, I'm going to walk to the local voting booth, and cast my vote in my first presidential election.

## You Should Be You, No Matter How Big the Paycheck

By: Shawn Bennett

I noticed something the other day while I was at work. I am not only paid to make food and help clean up the place, but I am also being paid to be nothing else other than that.

One day I was being trained to take and serve drive-thru orders. In doing so, I started to panic and tried to relax and tried to be more like myself. It worked. I was feeling okay and was talking on the phone, and despite the fact that I was I did the job successfully. As a particular car drove away, I noticed that I said to him, "Have a good evening, dude." Afterward, my boss told me how "unprofessional" it was of me to say that.

Since when is making burgers a profession? I mean, since when did I forfeit my self for my "rent/grocery money"? 'Cause that is all my job is to me. I would like to hear your opinions. E-mail me at [s\\_sabennett@clarion.edu](mailto:s_sabennett@clarion.edu) or write an article for the

## From the Editor's Desk

By Sheena M. Hoover

In response to the last article, "You Should Be You, No Matter How Big the Paycheck," I really started thinking about most of my shopping trips of the past few years. Ever since I worked at the Bon-Ton in Cranberry as my first real job, I can't help but be offended by the sales associates at other stores. The thing is, when I worked at Bon-Ton, I worked my butt off—I was polite, hard-working, and yes, professional. This is despite the fact that I worked for low wages and only received one raise (if that's what you can call it!) in the two years I worked there.

The point is, it doesn't matter how much money you're making. I don't care if you work for minimum wage or \$30 dollars an hour, if you want to get anywhere in this world, you have to be professional about it.

Anyway, back to what I was saying about other stores. During my time working in a department store, and ever since, I've been disgusted by the way I've been treated at almost every store I've shopped at. When I was shopping at the Bon-Ton in Butler a couple years ago, two teenage sales associates were working in the junior's department. While my sister and I tried on clothes, the workers were wearing merchandise that was for sale on the floor—yes, that's what I said, they had ink tags on them! The one girl

was talking on the phone, and despite the fact that I was waiting to ask her a question, she proceeded until she was done with her conversation to acknowledge me. For the half hour I was in the store, the workers never did any work even though the place was a mess, and they never said a polite word to either of us. The thing is, I worked a lot harder than they did at their jobs and got paid the exact same. However, if I had behaved the way they did, I would definitely have been fired. So, my point is that it doesn't matter what kind of job you are working. How you act to people reflects your company, so you better believe professionalism is important. If customers don't think you act professionally, then they might think your company doesn't know what it's doing either.

I think it's fair to say that your actions on the job reflect your importance to the company. If you don't believe professionalism is important at a job even as "low" as Burger King, then don't plan on being hired anywhere better anytime soon. You have to know how to act like a professional to become one.

Lastly, if being yourself is what you're worried about, there are plenty of ways to be yourself at work without compromising professionalism. However, I'm sure there are plenty of hours out of the day when you're not working that you can be yourself and call people "dude" as much as you like. I just think if I was your customer and you called me "dude," I would probably not just drive away. I would make sure to put in a complaint to your manager. It's not just about professionalism, it's also about respect. If you can't respect me as your customer, then why should I respect you when you're my customer?

## Senate Proposes the Development of a Campus Smoking Policy

By: Angie Shontz, Student Senate President

Student Senate is looking into the development of a smoking policy that would be effective at Venango Campus. Many students have voiced concerns about the location of smoking areas on campus and have questioned whether there should be designated areas, a non-smoking policy, or no policy at all. In order to address all concerns and solicit suggestions from the campus community, Senate is holding an open forum on November 18 at 12 p.m. in Rhoades Auditorium.

Senate is planning to use the democratic process to make the decision. It wants to be able to have as much feedback as possible to best represent the entire student body. If you are concerned with the policy, bring your suggestions and concerns to the forum.

There are two very valid sides to the issue. There are those who smoke who believe they have the right to smoke outside wherever they choose. They also wish to be respectful to non-smokers but without a clear policy, it can become difficult. Non-smokers become upset when entranceways to buildings are occupied by students who are smoking. They believe it may pose health concerns and that walking through the smoke creates an uncomfortable environment. They also believe there is no escape from the second-hand smoke because entranceways are often crowded.

The issue has quickly become a controversial one on campus. Student Senate, along with campus faculty and staff want to resolve this issue to come to an agreeable consensus. Please make sure you attend the forum and contribute your thoughts and suggestions. If you are unable to attend, you can contact me, the Senate president, with your suggestions at [s\\_acshontz@clarion.edu](mailto:s_acshontz@clarion.edu). Thank you for your continued support in making this campus a place that values personal growth, fosters academic excellence and celebrates diversity and harmony through hard work and effort.

## Join Ski Club

## Assault on Fallujah

By: Jessica A. Anna

The United States military has begun an assault on Fallujah, an insurgent stronghold. Early on November 5, United States planes dropped leaflets over the city urging women and children to leave. Air strikes then began in the central city market and neighborhoods north, south and east of the city. The attacks were stronger than they have been in the past.

In the western districts of Fallujah, U.S. forces seized the main city hospital and two key bridges over the Euphrates River on November 8. They used 40 mm cannon fire from an AC-130 gunship to help in the attack. Artillery fire could be seen in the southern neighborhoods, as well as airbursts on the rooftops. Around 10,000 American soldiers and marines have been prepared for the assault.

## No Regrets

By Anonymous

18 years have passed me by  
what has happened stays back  
for its time to move on now  
living in the past gets you nowhere  
no regrets, just consequences  
that fill my life full of hatred and rage  
why does it always have to happen to me

nothing good ever happens  
at least when you want it to  
I see her crying out  
for a friend she never had  
who would have thought  
those special times we had together  
would lead to nothing but rejection  
does it mean that your time was wasted  
or is that bond even stronger

all those times we had  
alone, sitting together  
wondering about nothing  
just enjoying each other  
they really meant nothing  
nothing good came out of it  
but still I have  
no regrets, just consequences

it's not always good  
to see people together  
the bond is broken  
between us two  
betrayed and forgotten  
but I still have  
no regrets, just consequences

what angers us the most  
is the pain inside us  
trapped in until  
we finally let it out  
and when it comes out  
fists shall fly  
rage and fury emit  
friendship is lost  
the bond has been broken  
no regrets, just consequences

a new day has come  
it's time to move on  
I see a new person  
just as beautiful as the last one  
she is the beauty who is  
not able to recognize  
the beauty of my own  
try as I might  
I do not succeed  
but still I have  
no regrets, just consequences  
  
maybe someday I  
will be able to triumph  
over my colleagues and enemies alike  
and finally they will realize  
the consequences of coming  
face to face with someone  
who has  
NO REGRETS

## In Response to "From the Editor's Desk" Regarding Professionalism

By: Shawn Bennett

It seemed to me that your perspective is black and white. There is such a level that is both respectful and yet not professional. Those other clerks weren't just being unprofessional, they were also disrespectful. You associate the two as if they are the one in the same. Let me give another example. I was working in the drive-thru again and a customer asked if they could have a minute to decide. When asked this, I am supposed to say, "Order when you're ready." Instead, I said, "Take your time." I was not yelled at, but I was asked, "What were you supposed to say?"

Is that something that you would write a complaint about to my boss? I used the word "dude" for two reasons. Number one, it is just a part of my vocabulary, and number two, it was honest to myself to refer to the person as I would in life. I would apologize immediately if someone was offended by it. But to tell the truth, I stop in my tracks and cringe when someone calls me Mr. or Sir. It gives me the willies to think about it. What gives you the willies? Email me @ [s\\_sabennett@clarion.edu](mailto:s_sabennett@clarion.edu) or write an article for the *Voice* in response.

## Happy Birthday

By: Shawn Bennett

I have a birthday that is coming up, and yet I am saddened by it. My birthdays the past couple of years were not happy ones. I am not asking anyone to go out and buy me a new toy or anything. I just would feel happy if someone just wished me a happy birthday. It would make me feel like I am appreciated.

I think everyone would like to have someone wish them a happy birthday (there are some exceptions). It feels like it is defeating the purpose to tell someone to wish you a happy birthday. That is why I don't wish to disclose when my birthday is because then I would sound like I am asking anyone who reads this to wish me a happy birthday. I just wish that I could have an enjoyable, easy and fun birthday this year. For those of you who wish that someone appreciated them, if you know me, know that I do appreciate you. I have yet to meet someone that I did not appreciate, no matter what they have done to me. If I don't know you, don't be afraid to introduce yourself. I usually have on headphones that you can't miss.

## In Response to "Happy Birthday"

By: Sheena Hoover

First of all, I would like to wish Shawn a happy birthday, whether it be early or belated at this time. I'm not sure when his birthday is.

Second, I know what it's like to not have a very good birthday. Mine haven't been the greatest for the past three years. However, I realized after the first one that it doesn't really matter how the exact day goes. It doesn't matter how many presents you get or how special people treat you on that specific day. Even if the people closest to you don't come up with some amazing way to show you they care, just hearing them wish you a happy birthday is enough to brighten anyone's day. Even if that specific day doesn't go perfect, it's appreciating the simple, little things that is the most important.

## Poor Attendance for Pete Schmidt and Other Campus Events

On Friday, November 5, CAB sponsored a concert with singer/songwriter Pete Schmidt. Very few students attended, which is too bad because Pete put on a wonderful performance! For more information on Schmidt, or to preview his music, check out his Website at [www.peteschmidtmusic.com](http://www.peteschmidtmusic.com).

There has not been much attendance at really any of the campus events lately that are held for the students. The events are put on specially for students and are mostly paid for by your activities fee that is part of your tuition. Many of the events are also open to faculty, staff and guests of students.

It's important for students to attend these if they would like events to continue to be put on. The events around campus are an important way for students to interact with other students and create or reinforce relationships. They are also a way to take a break from work or to fill your spare time with a little excitement.

If the activities being offered are not ones that you are interested in, then it's important for you to have your opinions heard by the Student Senate and the Campus Activities Board members. You might even consider joining either of these groups in order to have your input heard and make a change on campus. Student participation is important in making this campus enjoyable for everyone while you're getting a college degree. After all, this is *your* college experience, so please help make it the best it can be.

## Thanksgiving Feast and Concert was a Success!

Those who attended the ALO, CAB, and LSC-sponsored Thanksgiving feast and Four Shadow concert on November 19 were part of a full house. Everyone must have really liked turkey because this event had many participants and was a lot of fun for students and their families.

The event started a little after 6 p.m. with everyone taking turns picking between turkey, stuffing, gravy, noodles, potatoes, rolls, casseroles, fruit, vegetables, and many choices of desserts. At the end of dinner, there was a raffle. At 8 p.m., the all-vocal group, "Four Shadow," dazzled the crowd in the auditorium.

A four-person group from Minneapolis, "Four Shadow" was a crowd-pleaser singing songs from all different eras in their "trip through time." They also played a few originals and got the crowd involved by inviting three volunteers to sing with them on stage. One of them, Darlene Hartman, did a great job! The show was a lot of fun for people of all ages, as it was entertaining to witness vocal talent without instruments. It was difficult to tell they weren't using instruments except that there weren't any on the stage. "Four Shadow" truly put on a great show and were the perfect ending to a great night at the campus. They even stuck around to sign autographs afterward.

Thanks to Darlene Hartman, the LSC helpers, ALO, CAB, "Four Shadow" and everyone else who helped out for putting on such a nice evening for everyone and their families.

If you missed the show and would like to find out more about the a cappella group, "Four Shadow," you can visit their Website at [www.fourshadow.com](http://www.fourshadow.com).

## Nursing Club Sponsored Blood Pressure Screening

By: Bonnie Sharrar, Nursing Club Treasurer

The Nursing Club of Venango Campus sponsored a blood pressure screening on November 11 in the Montgomery Hall main lobby as part of a health awareness opportunity. Seven students in both their first and second year of the School of Nursing shared the responsibilities and participated as screeners from 1 a.m. to 3 p.m.

Thank you to the two faculty members who helped by overseeing the screening, Liz Stephenson and Angela West. Kudos to all of the 42 people who took the time out of their very busy schedules to have the nursing club students take their blood pressures. You all helped to reaffirm students of their abilities to perform this task well. Surprisingly, the faculty had some of the best readings. Many students, on the other hand, showed signs of abnormal blood pressure readings according to guidelines used and posted by the American Heart Association.

What does that mean? I won't go there. I will, however, remind all of you who are reading this article to have your blood pressure checked regularly, record the readings, and keep a diary of them.

Did you know that the average normal heart beats 60 to 80 times a minute and has an output of about five liters per minute? This is a fact taken from *Brunner and Suddarth's Textbook of Medical-Surgical Nursing*. Also, according to the American Heart Association, if your blood pressure is outside the normal ranges of 120 systolic and 80 diastolic, you should be rechecked in one to three months. Some areas that can influence your health are regular check-ups, diet, weight, smoking, stress, exercise, and medications. Be mindful of these areas and work on regulating each of them for your maximum health. Keep up the healthy work!

## Demise of a Friendship

By Anonymous

In life no one is who they seem  
all fake and not for real  
you think you know who this is  
but I am someone else  
just like you I see  
what happens to him daily  
and the rage he has inside  
  
'cause you see  
I have the same rage  
inside of me  
and you are the one  
the problem and the cure  
  
it must be nice to pick  
whatever is needed at the time  
and to blow off  
everyone else around you  
you say that you love me  
what a fake saying that was  
you left me alone  
without a friend  
no one cared less for me  
than you at that point  
  
Rage and fury build up inside  
only feeling sorry for myself  
I do not want your sympathy  
cause you really don't care  
  
the cure you say  
it's way to late  
the damage is done  
you never realize what  
it's like to have the life  
I'm living now  
For if you did  
you would see  
life isn't that bad  
when you have all you wanted  
and waste what you  
could have had  
  
this is truly the  
demise of a friendship

## Audio Appreciation

By: Shawn Bennett

I have a, for lack of a better word, belief that I feel everyone should have some consideration. Not toward me but to the "belief." The belief is the concept of appreciating music. Music is to be felt, not listened to. That is what lyrics are for and, even then, feel the music first. I am a novice musician, but I listen to the sounds made by other composers. I get certain feelings while listening to certain music. For example, songs that are written by people with a sad story make me cry. But only certain songs. For some reason, when I hear a song that just happens to be related to a sad story, it does not have the same potency as a song based on a sad story that actually happened to the composer. I listen to worship songs, and they give me goosebumps because of how much faith the singers have in the belief of Jesus.

However, I am not telling anyone to listen to any religious songs. I just want to say that anyone can really feel the message of a song if they listen to the words and feel the music. Nobody does this nowadays or at least not many people, it seems. There are definitely not as many as there should be. I feel that people should appreciate music and sounds more than they do. A lot of people like certain music because it is heavy or loud or something. That is only half of it.

Listen to the words and understand the message they try to portray. A good example of a type of music that not many people take into consideration when talking about meaning is "boy bands." Most of their songs are about love or someone they love. Let me ask this, how many of their songs are they singing about a particular person that they honestly know? I am sure it's not very many. I don't have any proof, but it's obvious they are just writing (if they actually write them and don't have someone else do it for them) these songs like ninth grade love poems.

Here is something I can speak for. I have yet to see any of them compose any of the music in any way, whether they play an instrument or mix the tracks or anything. I believe that you need to at least write the "emotion." If they don't write the music, then either the emotion of the music is someone else's or artificial. In the words of a popular San Demas, Calif. rock group from the late '80s, "That is most non-triumphant." Tell me what you appreciate at [s\\_sabennett@clarion.edu](mailto:s_sabennett@clarion.edu) or submit to *The Voice*.

## CD Review: Eminem's "Encore"

By: Sheena M. Hoover

Eminem does it again? Well, not quite. The fourth album by 32-year-old Marshall Mathers was released on November 14 and had fans awaiting the CD long before its arrival. But were all the hardcore Eminem fans happy with the results?

"Encore" features 20 tracks including three skits and a bonus CD with three songs on it. Eminem is joined by friends 50 Cent, Nate Dogg, Obie Trice, Stat Quo, and members of D-12 on four of the songs on the record. However, most of the songs don't feature the normal sound Eminem fans may have been expecting from the rapper. Quite a few of the songs seem to be mostly sick and funny rhymes instead of rhymes with substance and the usual rage.

The first five songs on the album basically contain the same Eminem sound we've gotten used to by now. The first song on the album, *Evil Deeds*, is another song dissing his mother and is quite funny; however, it lacks the usual angst. In the second song, *Never Enough*, Eminem even thanks his mother for raising him because he says that his past has made him what he is today.

*Yellow Brick Road* addresses the "racist mixtape" that turned up not too long ago. In the song, Eminem states "people say they heard the tape and it ain't that bad, but it was, I singled out a whole race, and for that I apologize, I was wrong." Eminem explains the song was actually about a black girl that he dated and who dumped him. In the song, he wrote when he was 16, he advised listeners to "never date a black girl." *Yellow Brick Road* also confronts people who don't think Eminem, being white, belongs in the rap music genre.

The fourth song, *Like Toy Soldiers*, addresses the issue with Ja Rule and Benzino. Eminem explains that it wasn't a big deal until Ja brought his daughter's name into one of his songs. *Like Toy Soldiers* seems to go back and forth between anger against them and calling a truce with them. The song's beat is a relevant military drumbeat.

*Mosh* and *Puke* voice Eminem's hate for Bush and his ex-wife, Kim. *My 1<sup>st</sup> Single*, *Rain Man*, and *Big Weenie* are all practically pointless songs. \*\*\* *Like That*, *One Shot 2 Shot*, and *Encore* are also disappointing, but a little better. However, if you listen to every single lyric in each song, you'll catch at least one or two good points. *Just Lose It* is funny and has gained the normal popularity of any of Eminem's first singles off of each album.

*Spend Some Time* is a good song about men falling for the first woman who comes along and finding out it's a mistake. The song's lyrics pretty much sum this up in the chorus by saying, "I never thought I'd find someone to be mine, Lord knows I was right, 'cause you just crossed the line."

*Mockingbird* is an apology to Em's daughter and his niece in which he says how he's tried to shelter them the best he can and that everything is going to be alright.

*Crazy in Love* is a song about being insanely in love with someone even while going back and forth between fighting and being in love. It features pieces of Heart's classic, *Crazy on You*. A key line in the song is: "You are the Kim to my Marshall, you're the Slim to my Shady, the Dre to my Eminem, the Alaina to my Hailie."

The bonus CD features three songs: *We as Americans*, *Love You More*, and *Ricky Ticky Toc*. *Love You More*, in my opinion, is the best song on the bonus CD, if not on the entire *Encore* album. The meaning is about the same as *Crazy in Love*. The lyrics include this line that is the basis of the song: "The more you put me through, the more it makes me wanna come back to you. You say you hate me, I just love you more."

As a whole, the album is quite a long album. Even for those who aren't Eminem fans or who are disappointed with this album, it's at least worth a listen or two to see who he's dissing now. The CD features lines against his ex-wife, his mom, Michael Jackson, Christopher Reeves, President Bush, Jessica Simpson and her Chicken of the Sea, R. Kelly, Paris Hilton, Nicole Richie, Britney Spears, Justin Timberlake, O.J., Ja Rule, Benzino, and the list goes on. However, Eminem compliments Jessica Simpson, Mary Kate and Ashley Olson, and Hilary Duff in \*\*\* *Like That*.

While some fans of Eminem may be a little disappointed with this album, I haven't heard too much complaining about it. What the album lacks in quality in some of the songs, it makes up for in quantity. "Encore" as a whole is not the masterpiece that we are used to from Eminem, but it isn't a flop either.

On Tuesday, December 7, there will be a presentation on the history, rituals, and meaning of Hanukkah. The event includes an interactive presentation and an opportunity to sample traditional Jewish foods including matzo ball soup and potato latkes.

On Wednesday, December 8, Elie Kihonia, from Pittsburgh's Afrika Yetu ([www.afrikayetu.org](http://www.afrikayetu.org)) will present, a Kwanzaa ceremony. Following the ceremony the Wacongo Dance Company, an ensemble of master drummers, musicians, and dancers, will perform ancestral songs and traditional dances of Central Africa. Faculty, staff, and students will have an opportunity to try their hand at Central African traditional, neo-traditional, and contemporary African drum and dance. ## Ethics Essay Contest for 2005

The division of Philosophy is announcing its annual Ethics Essay contest. Essays are not due until April 15, 2005, for the Clarion University Ethics Essay Contest. The purpose of the contest is to draw attention to ethical issues and questions and to encourage students to examine the topics in a thoughtful manner.

The contest is open to all enrolled full-time and part-time undergraduate students of Clarion University. The essay must be well developed and completed in a minimum of five double-spaced pages with a 12-point font and one-inch margins.

The financial support for the Ethics Essay Contest has been provided by supporters of the competition. The awards for this year's contest are \$100 for first place and \$50 for second place.

Entries must be submitted by Friday, April 15, 2005, to the Division of Philosophy PSSP department office in 313 Founder's Hall at the Clarion Campus.

The contest requires submitted essays to be written in the general style of an argumentative essay. They must clearly focus on a moral issue or question related to the theme and include support for any moral and factual claims that are made. The theme for the contest is The Ethics of War. The following topics might be explored: Is war ethical? Can any war be religiously justified? Can any war be morally justified? Is an offensive war ever morally justified? What weapons are a legitimate means of self-defense? Nuclear weapons? Biological weapons? Chemical weapons? Guns; automatic, handguns, single-action rifles? Torture? Why is it important to discuss the tactics of war? To avoid immoral actions? To prevent abuse of people? To avoid destroying the environment?

For general assistance in writing the essay, students may use the Learning Support Center on the third floor of Montgomery Hall, talk with other students or ask their professors to comment on drafts of the essay.

Students must be enrolled as an undergraduate student at Clarion University. Essays must be in English and be the original, unpublished work of the author. Revisions of papers originally written for classes are acceptable.

To be eligible for a prize, there must be some original ideas in your essay. Essays will be judged by the Essay Contest Committee using the following criteria: 1) Essay clearly focuses on a moral question or issue. 2) Essay provides support for the moral beliefs or principles used to make ethical assertions. 3) Author uses arguments, analogies, and concrete examples in support of controversial assertions. 4) Author uses language effectively and observes the conventions of standard written English.

## Deep Thoughts Poem—Why

By: Anonymous

You think you are beautiful  
I can see it in your eyes  
you think that you are special  
and just because you may have  
the look that everyone loves  
you are nothing special  
in my eyes

I can see you conscious  
breathing down your throat  
you want to be the best  
and for a minute you were  
but now I can see  
You are just like me  
just another face in  
this ruthless world of mine  
you are just like me  
time will tell our fate  
and in the darkness  
when life demises

that is when I  
will flourish the most  
and you will finally hear  
the story that I've told  
and you will finally see  
the glory you have lost

he only tried to be  
his own humanity  
but you did not accept him  
for what he was  
his mind is deep  
with thoughts and courage  
twisted and confused  
you give into his game  
at last he has you  
bowing down on your knees  
praying not to end  
your life as you know it

it's over now  
because you acted  
upon your wants and no other  
maybe if you would have seen  
the fury, anger and rage  
that builds up inside  
everyone of us

that you deny the chance  
to be with you  
even for a brief second  
before your life demised

thank you for nothing  
your cold heart felt no pain  
maybe someday I alone  
will break the chain  
that binds me to  
your dead lifeless corpse  
and only then will I  
truly be free  
from the body that  
kept me back  
all that time  
just keep asking yourself  
WHY?

## Movie Review: Alexander

By: Sheena Hoover

Alexander is a movie about one of the most powerful rulers of all time: Alexander the Great (Colin Farrell). In the movie, he was taught by his mother, Olympias (Angelina Jolie), and his great teacher, Aristotle, to be strong and that he would someday be remembered as one of the great leaders in history.

The movie tells of Alexander's rise to power, his victories over Persia and more of the known ancient world than any other military leader, and his fall from greatness. His passion for exploration and conquering more land was his greatest fault, but he could only follow his dream.

While Alexander the Great was always one of my historical favorites, that alone does not make this movie a masterpiece. Neither does the length, which is just a few minutes short of three hours. I was excited to see this movie because the previews lead you to believe that it's one of those deep "love and war" movies. However, Alexander doesn't necessarily find love, except with his male friends, and the war lasts far too long. The movie ended up being a little boring for my taste, but it did tell a lot about history. I just found myself thinking that it seemed a little too much like a movie we would be forced to watch in a history class in high school, not a movie I wanted to pay to go and sit through.

## **From the Editor's Desk**

Now that it's actually the end of the semester, I almost—ALMOST—feel sad that it's coming to an end. It's been a really long semester for me, and it seems to have been that way to a lot of people I've talked to. In reality, I don't feel sad it's ending at all; I can't wait until Thursday at 4 o'clock when I'm completely finished with everything that has to do with college until January 10.

Why was this semester so much longer than any other semester? It seems the professors never ceased to surprise me this time around. What with a 75-point total for the semester in one class that I didn't learn anything in, to a group assignment just assigned last week, it's been quite the semester between my classes here and at Clarion. In fact, one of my professors even helped all the students left in the room at the end of the test with the answers. Not me, though, I flunked that one.

I guess, my point is, while I've had some fun times and learned a lot (in *some* of my classes), I really question my sanity when I think that next semester may be the same, or, even worse. I guess all I can do is hope for the best and concentrate on enjoying the fun part that college brings to my life. For one, I can't wait to go skiing with Ski Club, or to keep editing this newspaper and hopefully bringing on some new and different writers next semester.

I guess it hasn't been *that* bad of a semester. I did work my butt off in a couple of classes, and it has ended up paying off for me. I even learned a little about the economy, which is something I never really cared much to know about.

While it hasn't been that horrible of a time, I am so ready for a break. I just hope I can make the best of the time off before we have to come back!
